Stack with up to \$15,000+ additional federal, state and utility incentives.

How Replace Your Ride Works

The **Replace Your Ride Program** is for **income-eligible Vermont residents** who are ready to take their old car off the road in exchange for a cleaner mode of transportation.

Purchase your EV at a participating dealer or request a prepaid clean mobility debit card.

Turn in your old car at the dealership or at a participating auto recycler.

Get incentive at time of purchase or receive your prepaid clean mobility card by mail.

*Incentives depend on household income and scrapped vehicle eligibility.
Offer is available on a first-come, first-served basis while funding is available.*
