- The Vermont Agency of Transportation (VTrans) has the right to audit eligibility for this incentive. In the event of an audit, VTrans will require the applicant to complete a State of Vermont Tax department form 8821-VT (Authorization to Release Tax Information). Following receipt of this form, the Tax Department will release the relevant State of Vermont income tax return (form IN-111) information to VTrans for verifying that the applicant's income met the State incentive program requirements for the incentive amount received. Failure to provide the State with a completed form 8821-VT within 21 days following a written request will cause the applicant to be deemed non-responsive and thus ineligible for the incentive. If an applicant is deemed ineligible for the State of Vermont incentive amount claimed—either due to their nonresponse or by an audit finding—then the applicant will be obligated to repay the State, the full amount of the incentive received plus interest at the statutory rate from the date the incentive was awarded.
- The State of Vermont EV incentive may be considered taxable income by the U.S. Internal Revenue Service and the Vermont Department of Taxes. It shall be the sole responsibility of the recipient, individually, to seek professional advice and determine the tax consequences of receiving an incentive.
- The total incentive pool is equally available to all eligible Vermont residents on a first-come, first served basis contingent upon funding availability.
